

Snow Advisory Alert

Wednesday, 10 February 2010 00:00

In light of the snow predicted for this week residents are asked to remove their vehicles from roadways so snowplows can clear streets efficiently and effectively. Additionally:

- Please wait until snowplows have cleared your streets before shoveling driveways and sidewalks. Always shovel snow to the right of your driveway apron (as you face the street) so plows do not push snow back in front of your driveway.
- Fire departments depend on neighbors to clear snow away from hydrants so they can access them quickly in the event of a fire.
- If you live on a corner, please clear a path from the sidewalk to the street at the corner for pedestrians.
